

Gantry Type Drilling and Plasma Bevel Cutting

○ ATC (Auto Tool Changer)

- Automatic tool changing system
- 5 tools mounting and auto changing
- Auto skip function for 8 more tools
- Anti-collision sensor
- Malfunction preventing sensor

- 15kW SPINDLE MOTOR
 - Max 2000RPM
- COLLET SIZE BT40
- MAX DRILL , TAP DIA 35mm , M24
 - MIN DRILL, TAP DIA 6mm, M6
- Improved control by high precision encoder
 - Mist cutting oil supplies
 - Water- soluble cutting oil supplies
 - Spindle orientation function

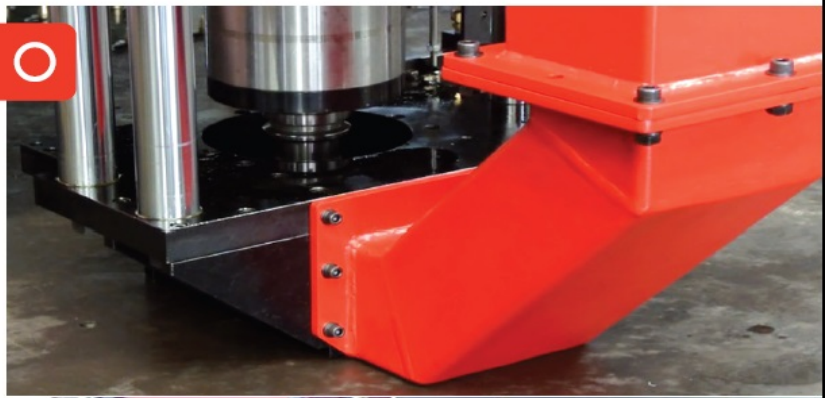

Machining Head ○

Material Press System

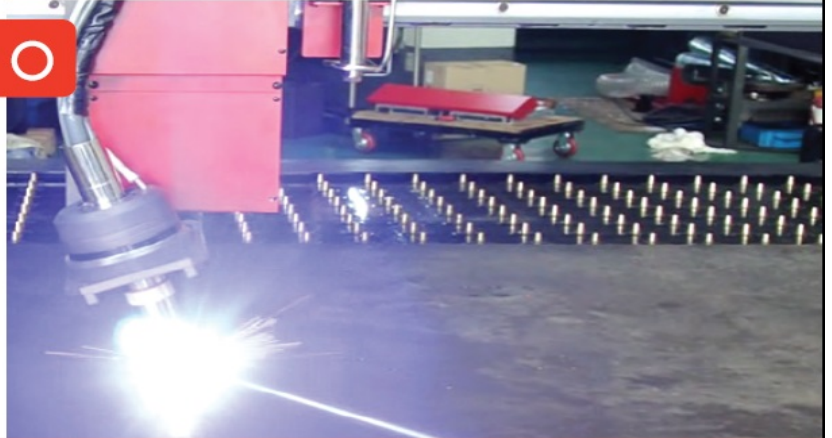

Minimize vertical vibration during drilling
Prevent bending of the material
with drill chip and cutting oil suction build-in
Vacuum Suction build-in

Bevel Cutting Head

Rotation & Titing 방식
Rotation speed: 60RPM
Infinite rotation system
Tilt speed: 20RPM
Tilt angle: +45도~-45도 (정도 $\pm 0.5^\circ$)
Arc voltage height controlling system

High Quality & productivity

Dynaweld®
THE LEADER OF WELDING TECHNOLOGY

Auto tool compensation system

Automatic tool length compenstion
Easy main tenance limit switches
inside air injection system for cleaning
Possible to check dia 100mm tool
